Workplace Giving

Workplace giving is one of the easiest, most effective ways to **support survivors of family and sexual violence** in Papua New Guinea.

By signing up to your organisation's workplace giving program, you can help us support Femili PNG to:

Link survivors of violence with **safe accommodation, legal interventions, medical assistance,** and more.

Train community leaders and service providers to support survivors in their own communities.

Provide survivors with **business start-up kits** to help them become financially independent.

All donations are made pre-tax through your organisation's payroll system. Since your tax benefits are immediate, this increases the value of your donations. It also makes it easy for you to opt in and out whenever you like.

Contact your organisation's payroll team to sign up!
